Bill For Dry Strait Survey

F. Matheson is in receipt of a letter from Delegate Wickersham the first of the week in regard to the Dry Strait Channel which the local Chamber of Commerce is working very diligently to get the government interested in, and from all reports the Dry Strait Committee, Mr. Matheson chairman, are obtaining that end in great shape. With Mr. Matheson's consent we print the letter, and also the Bill which Delegate Wickersham has introduced in the House.

Committee On The Territories
House of Representatives
Washington, D. C.

August 3, 1914

Mr. F. Matheson,
Wrangell, Alaska,
My dear Mr. Matheson:

Herewith I send you several copies of H. R. 18143, introduced by me on July 30th, 1914, being a bill to start the work of legislating in favor of the Dry Strait Canal. It will not be possible to do anything more at this session of Congress than to introduce the bill and I send it to you so that you may understand what has been done and the scope of the bill. I hope to be in Wrangell in side of two or three weeks and I intend to stop off and stay

as long as it is necessary to have a full understanding with you and the people of Wrangell about this matter. It is a big job and it will have to be well organized at the beginning if we are to be successful with it. I suggest that you get the people of Wrangell as familiar with this matter as you can in the meantime so that when we do get together we will all understand the situation.

Very truly yours,
James Wickersham,
Delegate from Alaska.

H. R. 18143.

In The House Of Representatives
July 30, 1914.

Mr. Wickersham introduced the following bill; which was referred to the Committee on Rivers and Harbors and ordered to be printed.

A BILL

Providing for a survey and report upon Dry Straits, Alaska, and an estimate of the cost of dredging said channel, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the sum of \$25,000, or so much there of as may be necessary, is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to be expended by and under the direction of the Secretary of War, for the survey of Dry Straits between Mitkof Island and Dry Island, near the

mouth of the Stikine River, in the Territory of Alaska, to determine the cost of deepening the channel of said Dry Straits to a uniform width and depth sufficient for the navigation of the same by large vessels, and when the said surveys are made and the estimates prepared the Secretary of War shall make a report thereof to Congress with recommendations.

R. M. DeFosset, the man who stole \$4000 in gold from the pack train while enroute from Dease Lake to Telegraph, arrived down on the Karen the first of the week, in charge of Special Deputy Wm. McNaul, of Telegraph. Marshal McNaul states that DeFosset was captured about twenty-five miles from Telegraph after a three day hunt and surrendered without any trouble, taking his captors back to Caribou Camp and showing them where he had hidden the gold in the brush a short distance from the trail.

Marshal McNaul is taking his prisoner to Prince Rupert, where he will be tried.

R. M. DeFosset is a Frenchman about twenty-eight years of age, and came to the Dease Lake country from the Hazelton District about three years ago during the Silver Creek stampede.

Fight Is On At Leige

Brussels, Aug. 13---The bombardment of the Liege Forts commenced at day break today, the forts are still holding out but a fierce fire is being kept on them all day by the big Krupp guns that arrived during the night. The German troops are rushing cannons forward at all possible speed.

Brussels, Aug. 13---Belgians drove back the German troops in the vicinity of Diest after they had made several bayonet charges and spent the whole night in fighting. First one side would gain ground and then the other. Many tales of horror are told by the wornout Belgian soldiers as they come into camp, of the Germans when they gained ground killing the wounded Belgians as they lay helpless on the battlefield, also torturing civilians whenever caught.

Brussels, Aug. 13---In a night attack last night the Germans made an attempt to break through the Belgian and French front but failed after fierce fighting, the losses were heavy on both sides.

Brussels, Aug. 13---The report here this afternoon that a large body of Germans had attacked the Belgian French and English troops at Namur. Particulars are lacking.

Rainbow Arrives At Vancouver

Vancouver, Aug. 13---The Canadian cruiser Rainbow conveying the sloop of war Shearwater arrived in this port this morning and put an end to the report of her having been sunk in a naval battle off the California coast.

San Francisco, Aug. 13---Stripped for action the German cruiser Leipzig arrived here this morning to take on a supply of coal. The movement of the vessel after she leaves here is not known.

Berlin, Aug. 13---The report reached this city last night of a great victory for the German troops at Muelhausen which they captured in the fight the Germans took capture one hundred and twenty French troops. This city is wild over the news as it is one of the first big victories of the German troops.

Paris, Aug. 13---According to advices received from the front the German and French troops are fighting furiously near West Luxembourg, Germany. The dispatches say the Germans are being driven back with heavy losses.

London, Aug. 13---Japan has agreed to send her fleet to join the British and French in their attack on the German fleet off the China Coast near Tsingtau.

London, Aug. 13---The strength of the British Navy in the Mediterranean is unknown, as the movement of Warships has not been made public since the war started.

London, Aug. 13---Britain formerly declared war on Austria Hungary this morning.
Continued on last page.

The City Fathers met in regular session last Thursday evening at the Council Chambers. As Mayor Emery was absent on motion Councilman Grant acted as chairman of the meeting. Under the head of Report of Committees Councilman Johnson tendered his resignation as Chairman of the Water Committee, and the chair appointed Councilman Sorset as Chairman of the Committee and Councilman Tate to fill the vacancy. Councilman Sorset reported that the work on the dam site was progressing in fine shape, and in his report he stated that the new dam had cost up to August 1st, \$2,265.65. Under New Business the matter of paying the fire chief a certain sum per year was taken up and after some discussion a motion was passed appropriating \$100 a year for that purpose.

Under this head the Judiciary Committee was authorized to draw up an ordinance making a fire limit in the Town of Wrangell. This is one of the most important matters that can be taken up by the Council, as practically all our fires are caused by defective stove pipes and under the new proposed limit every new house built must have a brick chimney, and the ordinance will probably call for new chimneys put in all the houses now having stovepipes, but giving them a reasonable length of time to put them in.

A good show at the Wrangell Photoshow tonight.

Townsite Survey Settled Soon

Department of the Interior
Office Surveyor General
Juneau, Alaska.

Aug. 6, 1914

Hon. Mayor and Common Council
Wrangell, Alaska.

Gentlemen:

The Commissioner of the General Land Office, Washington, D. C., has instructed this office to prepare instructions for the survey of Wrangell Townsite.

The work will be done by U. S. Surveyors Warner and Williamson, as soon as their present work will permit.

Very truly yours,
Charles E. Davidson,
Surveyor General.

The new mail boat Prince of Wales is now on the regular run having made the last trip to the West Coast. While she did not make her full length trip this time, only going as far as Sulzer.

The Prince of Wales is indeed a fine vessel and one that Capt. Neill can be proud of. She is 65 feet long, has a beam of 18 feet and has a draft of 8 feet. The vessel was built at Eagle Harbor Wn., and was launched June 13, 1914, and has passenger accommodations for 36 passengers.

"What Happened to Mary" is coming to the Rink next week.

Mexico. General Villa has broken
with Carranza, but who cares now?

The Dry Strait Channel is a
matter of vital importance to Wan-
gell and more interest should be
shown in the matter. There will
be a special meeting of the Cham-
ber of commerce in the near future
so show your interest in Wrangell
by attending and helping us boost
for the Dry Strait Canal.

At last there is something definite
about the Townsite survey and
from the appearance of things it
will be fixed up in the next few
months.

Washington, Aug 11—The
Government Officials in this city
last night gave out the information
to several reporters that the War
Tax was inevitable, and that it
would include a Stamp Tax raise.
They give as the reason of the de-
ficit was the big drop in imports,
as practically all commerce with
foreign nation has ceased.

London, Aug. 11—The French
and British forces are gathered at
Namur to repel German invasion.
The French troops are stationed in
all the Forts around Liege and are
guarding all the principal roads on
which the Germans could advance.
The outlook is bad for Germany
as they are very short of provisions.

Happenings of the War During The Past Week

New York, Aug. 7.—The armored cruiser Tennessee carrying six million dollars of American gold, to be used to send marooned Americans back to the United States, sailed from this port for Europe last night.

Halifax, Aug. 7.—The big liners Mauretania and Cedric came full speed into this port last night. Both vessels were bound for New York but have been warned by the British Admiralty that hostile war ships were waiting a chance to capture them so changed their course and came here to wait a chance to get an escort across.

Brussels, Aug. 7.—The German army has asked for an armistice of twenty-four hours to bury their dead and save their wounded of the great battle fought near Liege. Those in authority state that the loss yesterday was twenty-five thousand killed, and wounded unknown. The Belgians safely defended their city.

Berlin, Aug. 7.—The report is given out by the authorities that nineteen war ships were either sunk or captured by the British during the North Sea fight yesterday. The loss of the British is not known.

Paris, Aug. 7.—Advices received here last night state the British have captured over sixty vessels of German register and are holding them in various parts of the world.

London, Aug. 7.—Early this morning advices were received to the effect that the British war ships have fought a terrific battle in the North Sea yesterday with the German fleet, the latter was defeated with a great loss, and from the last reports received were now moving in the direction of the coast of Holland. The British Admiralty issued the word this morning to the effect that merchant ships are now safe in the North Sea during the day time as the Sea is completely patrolled by the British navy who now have supreme control.

London, Aug. 8.—Seven German regiments were surprised by the Belgian troops across the river Meuse and after a short and sharp fight surrendered and are now prisoners.

Stockholm, Aug. 8.—The British are in complete control of the North Sea; and it is reported that they have the German fleet in these waters bottled up.

Brussels, Aug. 8.—The armistice of twenty-four hours asked for yesterday by the Germans to bury their dead and save their wounded of the battle of Liege has been refused.

Berlin, Aug. 8.—Several train loads of wounded soldiers arrived in this city this morning and more are coming every hour. This is the first of the wounded to arrive and every available house has been turned into a hospital as the many hospitals of this city are already crowded to their limit.

Brussels, Aug. 8.—It is reported that there are over a hundred and twenty-five thousand German soldiers engaged in the attack on the City of Liege, of which over twenty-five thousand are already dead and many thousand wounded.

Brussels, Aug. 8.—The report was given out here this morning that the Belgians lost at Liege up to 25,000 men and 8,000 wounded.

New York, Aug. 8.—Thousands of Germans are arriving in this city hourly and clamoring for passage aboard ships sailing to that country. The steamship offices are proving a very interesting sight as the passages are all sold out for many steamers ahead.

Berlin, Aug. 8.—The German army met a decisive defeat at Marrehan yesterday by the French army. The dead runs into thousands and many prisoners were taken by the French.

Berlin, Aug. 8.—The Kaiser, angered at the refusal of the Belgians to give a twenty-four armistice at Liege, has ordered two hundred thousand German troops rushed towards that point.

Brussels, Aug. 8.—Late this afternoon the Germans began another siege at Liege as the twenty-four armistice which they asked for was denied this morning.

Paris, Aug. 8.—British army transports, guarded by two battle ships and three cruisers landed twenty-two thousand British soldiers on French soil at Ostend this morning.

According to calls from Dunkirk the entire force will be rushed to Namir to aid the French army in their fight against the advance forces of the German army.

It is expected that the entire advance forces will be landed in the next two days.

Nish, Aug. 8.—The War Office gave out the information this morning that the Austrian troops were being repulsed everywhere and that the Serbian army is now invading Austria.

Rotterdam, Aug. 8.—The Ninth Belgian Regiment paraded through the streets of Antwerp this morning, each soldier was carrying a German helmet or bayonet captured during their battle with the Germans showing their victory. The people of the city were lined along the streets and cheered the soldiers as they passed, the whole city is in war attire.

London, Aug. 10.—The report which reached here yesterday to the effect that the Germans had captured Liege, was confirmed this morning. According to the report the Germans after a terrific fight have captured all the forts surrounding Liege. The uncaptured occupations are decorously treated.

The Commander in charge of the German troops has warned them that he will not stand against them committing any excesses toward the captured town of its inhabitants. Between three and four thousand Belgians were taken in the capture of Liege and are being held in the forts as prisoners of war.

Vienna, Aug. 10.—The report was sent to the medical men here that cholera has broken out among both the Austrian and Serbian troops, and asking them for some aid as the terrible disease is spreading very rapidly.

Berlin, Aug. 10.—It is reported here that the Kaiser has joined his soldiers on the Austrian frontier and will be in the field until the end.

Todoo, Aug. 10.—After being in session all night the Cabinet decided to take a hand in the war. The Japanese troops and navy will be sent to the seat of trouble.

Paris, Aug. 10.—A large force of Germans were routed at Altkursh yesterday and are retreating with the French army in full pursuit. The Germans gave way slowly and some fierce hand was the result of many bayonet charges. The loss on both sides runs into the thousands.

Copenhagen, Aug. 10.—In a short but terrible naval battle fought off the coast one British submarine was sunk and others received bad injuries when they clashed with several German cruisers.

Athens, Aug. 10.—According to a dispatch received here yesterday the Turks have concentrated a large section of Bulgarian Territory.

Rome, Aug. 10.—Word arrived this morning to the effect that Austrian cruisers are bombarding Antivari.

Berlin, Aug. 10.—This city was the scene of wild enthusiasm last night upon receipt of the word of the fall of Liege. All business is at a standstill and the people are spending the day rejoicing.

Saltillo, Mexico, Aug. 10.—Another real revolution has broken out in Mexico. All peace negotiations between the new President of Mexico and General Villa have been broken and Villa with a large army at his back this morning started on a march to Mexico. It is expected that the United States will have to intervene before peace can be restored in Mexico.

London, Aug. 11.—According to reports from the front there is little firing going on around Liege it is believed to be the lull before the storm of the greatest battle the world has ever known. The greatest armies that ever faced each other are gathering in the vicinity of Liege and are only waiting the final command to send them at each other. Just when the battle will start no one can say, but the next forty-eight hours may see the greatest bloodshed in the history of man. The excitement here is intense.

London, Aug. 11.—The Hamburg American liner Caportegel with six million dollars in specie aboard, bound for Buenos Ayres, was captured by a British cruiser and brought to South Hampton. This is regarded as very significant.

Rome, Aug. 11.—Advices received here this morning state that the Montenegrins have captured and now occupy Scutari.

Athens, Aug. 11.—The German cruisers Goeben and Breslau have evaded their British and French pursuers and safely arrived in the Adriatic.

Paris, Aug. 11.—Thirty thousand Austrian troops are invading Switzerland at Basel. They are meeting with only small opposition.

Vienna, Aug. 11.—Advices received here state that the Russians were repulsed while trying to enter Altria.

Paris, Aug. 11.—Owing to the strict press censorship little is known of the hard fighting between the Germans and French at Alsace. But it is believed that there has been several bad battles in this locality.

Paris, Aug. 11.—The French troops yesterday captured the coveted passes at Bohomme also at St. Marie.

News Today

Washington, Aug. 13--President Wilson is back at his desk at the White House and his first official act was to instruct the Attorney General to probe the food price increase which is raising by leaps and bounds in all the principal cities.

Vladivostok, Aug. 13--The harbor here is being mined against a possible attack from the German fleet.

Winnipeg, Aug. 13--Several trains of ammunition and artillery left this city this morning and are being rushed to the Pacific coast.

Seattle, Aug. 13--The steamers Alameda and Spokane sailed for the north last night. The Wrangell passengers on the former are F. K. Burnham and wife and F. H. Cook, on the latter are S. H. Conner and Stuart Hodges.

The Cordova Chamber of Commerce is of the opinion that the supply of British Columbia coal is going to be short on account of the war, so they are striking while the iron is hot, for the opening of the Alaska coal fields. Anyway Alaska has an enormous supply of coal and this is a good time to get it open, and to that affect they are sending wires to the different Chambers of the north. The following was received by the Wrangell Chamber this morning:

"We are wiring President and Congress demanding opening Alaska coal fields. Account war conditions British Columbia supply liable cut off any day. Assist by wiring your friends in Congress."

Copenhagen, Aug. 12--According to a reliable report that reached here this morning, the mobilizing of the Russian army will be complete by the twenty-first of this month.

From The "Squaw Man" at the Rink Next Saturday evening.

Jesse L. Lasky, President of the Jesse L. Lasky Feature Co., while apparently little known in the motion picture art, outside of New York and Western centers, is the leading vaudeville producer in the world. His numerous vaudeville acts are classics, and among which are the "Red Heads", "At the Waldorf", "In the Barracks", "Elopement", "Trained Nurses" and others, and he was responsible for the magnificent "Follies Serenaders" which introduced the cabaret into America.

Mr. Lasky's first step in the motion picture industry is the production of the "Squaw Man" in which Dustin Farnum appears in the title role and which is in six parts and two hundred and sixty-four scenes. Mr. Lasky is considered the most artistic producer of the present day and with Cecil B. DeMills, the eminent playwright, is producing twelve big dramatic successes a year in motion picture form, the first of which the "Squaw Man" comes to The Rink on Saturday, Aug. 15, for one night.

War News Continued

San Francisco, Aug. 12--A lot of wreckage came ashore near here this morning and from marking on them they belong to the Canadian cruiser Rainbow. It is believed that it was thrown overboard when she stripped for action. As nothing can be learned in any the coast cities of the Rainbow's whereabouts, it is thought that she has met one or more of the several German cruisers in these waters, met defeat and is now either captured or sunk.

Berlin, Aug. 12--The Kaiser yesterday ordered the commanders of the army seiging Leige forts to stop their assault on them as it was only a needless slaughter of German blood. He ordered his entire army to stay in the city, which is under their control, until the arrival of the Krupp long range guns which he feels sure will put a stop to the forts in short order.

Berlin, Aug. 12--The Kaiser returned from the front this afternoon, and is holding several meetings with his war department.

Paris, Aug. 12--The War Office announced this morning that the French army has checked the German invasion at Longwy after a long and hard fight.

London, Aug. 12--A general engagement is in progress at Trier-mont according to a report received here. The report states that the Germans are attacking from an entirely new angle.

London, Aug. 12--One of the big papers came out this morning with the statement that Roumania has declared war and will send a large army at once to invade Serbia.

Mrs. Wilson Passes Away

Washington, D. C., Aug. 7--Mrs. Woodrow Wilson, wife of President Wilson of the United States passed away yesterday afternoon at the White House, after a very short illness. The death of Mrs. Wilson was caused from a complication of nervous ailments and brights diseases. The President and family are prostrate. The entire family was at the bedside except one brother who lives in Oregon, who was unable to reach Washington in time to see his sister alive. This city is in mourning for the time being and the war has passed into oblivion besides the sorrow that has befallen the first family in the land. Messages of condolences are arriving by the thousands as the news spreads over the land.

Washington, Aug. 8--Mrs. Woodrow Wilson will be buried at Rome, Georgia, according to information given out at the White House by the President this morning.

Washington, Aug. 11--The funeral of Mrs. Wilson, held yesterday, was very private, only a few intimate friends attending outside of the family and one member of the house from each state. The President and family left on the five o'clock train for Rome, Georgia, where the body will be laid to rest. The President will return next Wednesday to his official duties.

Rome, Georgia, Aug. 11--The body of Mrs. Wilson arrived here this morning, and the funeral is set for this afternoon. This is the girlhood home of Mrs. Wilson and the whole city is draped in mourning. All along the route from Washington to Rome the church bells rang as the train passed through the different cities.

Washington, Aug. 12--Harry Buhro, a wealthy Alaska mine owner, is believed by his friends and relatives to have been impressed into Russian service as he was last heard from in that country, and all efforts to get in touch with him have failed. Delegate James Wickersham has taken the matter up and is seeking information of the missing man.
